All remaining rejections and/or objections follow.

Claims 22-35, 37-39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicants negative limitation that their polymer blend is "non-diene containing" was not present in the specification as filed and is therefore new matter as is the limitation that their film has a "surface roughness of about 7 to about 30".

Applicant's arguments filed 12-13-04 have been fully considered but they are not persuasive. With regard to Wertheim, it is of course true that a patent application need not disclose a term *ipsis verbis*. However, the mere fact that an application is silent regarding a feature does not lend support for a negative limitation regarding that feature. The instant specification and any disclosure for that matter is silent regarding an infinite number of features. Applicants however have chosen a particular species (dienes) from the infinite genus of unnamed features despite the fact that a genus (even a finite one) does not enable a genus.

The art rejection has been withdrawn based on applicants' amendment.

This application contains claims 1-21 36 40-144 and 162-194 are drawn to an invention nonelected with traverse in Paper No. 1204. A complete reply to the final

rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
